predoctoral training and three years for postdoctoral training, unless the Secretary for good cause shown as provided in §66.106(e) of subpart A of this part, waives the application of the limitation with respect to that individual;

(c) The provisions of §§ 66.110 and 66.111 of subpart A of this part constitute terms and conditions of any Award made from a grant under this subpart.

(Approved by the Office of Management and Budget under control number 0925–0022)

[48 FR 24880, June 3, 1983; 48 FR 33710, July 25, 1983, as amended at 66 FR 29501, May 31, 2001]

## §66.206 Grant awards.

- (a) Within the limits of funds available, the Secretary shall award grants to those applicants:
- (1) Whose applications have been reviewed and recommended for approval by the appropriate national advisory council or board;
- (2) Who have satisfied the requirements of §66.105; and
- (3) Whose proposed programs would, in the judgment of the Secretary, best promote the purposes of section 487(a)(1)(B) of the Act, taking into consideration among other pertinent factors:
- (i) The scientific, technical, or educational merit of the proposed program;
- (ii) The adequacy of the resources and facilities available to the applicant:
- (iii) The qualifications and experience of the program director and principal staff members;
- (iv) The degree of the need for personnel in the subject area or areas of the proposed research or training;
- (v) The extent to which the applicant, in making Awards, gives special consideration to physicians who agree to undertake a minimum of two years of biomedical research;
- (vi) The administrative and management capability of the applicant;
- (vii) The reasonableness of the proposed budget in relation to the proposed program; and
- (viii) The adequacy of the methods for monitoring and evaluating the performance of individual recipients and the overall program.

- (b) The notice of grant award specifies how long HHS intends to support the project without requiring the project to recompete for funds. This period, called the project period, will usually be for 3–5 years.
- (c) Generally the grant will initially be for one year and subsequent continuation awards will also be for one year at a time. A grantee must submit a separate application to have the support continued for each subsequent year. Decisions regarding continuation awards and the funding level of such awards will be made after consideration of such factors as the grantee's progress and management practices, and the availability of funds. In all cases, continuation awards require a determination by HHS that continued funding is in the best interest of the government.
- (d) Neither the approval of any application nor the award of any grant commits or obligates the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved application or portion of any approved application.

## §66.207 Other HHS regulations and policies that apply.

Several other regulations and policies apply to grants under this subpart. These include, but are not limited to:

- 42 CFR part 50, subpart D—Public Health Service grant appeals procedure
- 42 CFR part 50, subpart F—Responsibility of applicants for promoting objectivity in research for which PHS funding is sought.
- 45 CFR part 16—Procedures of the Departmental Grant Appeals Board
- 45 CFR part 46—Protection of human subjects
- 45 CFR part 74—Uniform administrative requirements for awards and subawards to institutions of higher education, hospitals, other nonprofit organizations, and commercial organizations; and certain grants and agreements with states, local governments and Indian tribal governments.
- 45 CFR part 75—Informal grant appeals procedures
- 45 CFR part 76—Governmentwide debarment and suspension (non procurement) and governmentwide requirements for drug-free workplace (grants)
